Molecular and Cellular Biochemistry:

An International Journal for Chemical Biology in Health and Disease

CONTENTS VOLUME 269, Nos. 1 & 2, January (II) 2005

V. Dhawan, S.S. Handu, C.K. Nain and N.K. Ganguly: Chronic L-arginine supplementation improves endothelial cell vasoactive functions in hypercholesterolemic and atherosclerotic monkeys 1–11

N. Watanabe, N. Amano, H. Ishizuka and K. Mashima: Leupaxin binds to PEST domain tyrosine phosphatase PEP 13–17

E. Parra, D. Cruz, G. García, C. Zazueta, F. Correa, N. García and E. Chávez: Myocardial protective effect of octylguanidine against the damage induced by ischemia reperfusion in rat heart 19–26

A.A. Pantazaki, A.K. Ioannou and D.A. Kyriakidis: A thermostable β-ketothiolase of polyhydroxyalkanoates (PHAs) in *Thermus thermophilus*: Purification and biochemical properties 27–36

H.-S. Zhang, J.-H. Xiao, E.-H. Cao and J.-F. Qin: Homocysteine inhibits store-mediated calcium entry in human endothelial cells: Evidence for involvement of membrane potential and actin cytoskeleton 37–47

R.C. Gupta, S. Mishra, X.-P. Yang and H.N. Sabbah: Reduced inhibitor 1 and 2 activity is associated with increased protein phosphatase type 1 activity in left ventricular myocardium of one-kidney, one-clip hypertensive rats 49–57

V. Pastukh, C. Ricci, V. Solodushko, M. Mozaffari and S.W. Schaffer: Contribution of the PI 3-kinase/Akt survival pathway toward osmotic preconditioning 59–67

A.A. Azenabor, G. Job and O.O. Adedokun: *Chlamydia pneumoniae* infected macrophages exhibit enhanced plasma membrane fluidity and show increased adherence to endothelial cells 69–84

H. Sun, N. Li, X. Wang, T. Chen, L. Shi, L. Zhang, J. Wang, T. Wan and X. Cao: Molecular cloning and characterization of a novel muscle adenylosuccinate synthetase, AdSSL1, from human bone marrow stromal cells 85–94

M. Kurdi, J. Randon, C. Cerutti and G. Bricca: Increased expression of IL-6 and LIF in the hypertrophied left ventricle of TGR(mRen2)27 and SHR rats 95–101

F.C. Howarth, A. Qureshi, A. Shahin and M.L. Lukic: Effects of single high-dose and multiple low-dose streptozotocin on contraction and intracellular Ca^{2+} in ventricular myocytes from diabetes resistant and susceptible rats 103–108

S. Nishida, H. Matsuoka, M. Tsubaki, Y. Tanimori, M. Yanae, Y. Fujii and M. Iwaki: Mevastatin induces apoptosis in HL60 cells dependently on decrease in phosphorylated ERK 109–114

K.R. Hegde and S.D. Varma: Prevention of cataract by pyruvate in experimentally diabetic mice 115–120

N. Yaras and B. Turan: Interpretation of relevance of sodium–calcium exchange in action potential of diabetic rat heart by mathematical model 121–129

V. Ravikumar, K.S. Shivashangari and T. Devaki: Effect of *Tridax procumbens* on liver antioxidant defense system during lipopolysaccharide-induced hepatitis in D-galactosamine sensitised rats 131–136

K. Shirai, K. Watanabe, M. Ma, M.I.I. Wahed, M. Inoue, Y. Saito, P.S. Suresh, T. Kashimura, H. Tachikawa, M. Kodama and Y. Aizawa: Effects of angiotensin-II receptor blocker candesartan cilexetil in rats with dilated cardiomyopathy 137–142

A.V. Panov, S. Lund and J.T. Greenamyre: Ca^{2+}-induced permeability transition in human lymphoblastoid cell mitochondria from normal and Huntington's disease individuals 143–152

Q.I. Fan, K.M. Vanderpool, H.-S. Chung and J.D. Marsh: The L-type calcium channel alpha 1C subunit gene undergoes extensive, uncoordinated alternative splicing 153–163

A. González, M.P. Granados, G.M. Salido and J.A. Pariente: H_2O_2-induced changes in mitochondrial activity in isolated mouse pancreatic acinar cells 165–173

S.F. Eddy, P. Jr. Morin and K.B. Storey: Cloning and expression of PPARγ and PGC-1α from the hibernating ground squirrel, *Spermophilus tridecemlineatus* 175–182

S. Mitsuhashi, H. Shima, N. Tanuma, S. Sasa, K. Onoe, M. Ubukata and K. Kikuchi: Protein phosphatase type 2A, PP2A, is involved in degradation of gp130 183–187

J.V. Tapia-Vieyra, R.O. Arellano and J. Mas-Oliva: ARP2 a novel protein involved in apoptosis of LNCaP cells shares a high degree homology with splicing factor Prp8 189–201

J. Faber-Barata and M. Sola-Penna: Opposing effects of two osmolytes – trehalose and glycerol – on thermal inactivation of rabbit muscle 6-phosphofructo-1-kinase 203–207

G. Sawicki, Y. Marcoux, K. Sarkhosh, E.E. Tredget and A. Ghahary: Interaction of keratinocytes and fibroblasts modulates the expression of matrix metalloproteinases-2 and -9 and their inhibitors 209–216

Index to Volume 269 217–219
